DETAILED ACTION

This is the first action relating to serial application number 10/673,549 filed 09-30-2003.

Claims 1-9 are allowed.

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Drawings

2. The examiner has accepted the drawing filed with this application as formal drawing.

EXAMINER'S AMENDMENT

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Pavak K. Agarval on 08-02-2006.

The application has been amended as follows:

the following changes have been made to the specification to correct typing error.

In page 9, line 20, "23 to 28 and 71" has replaced by -23 to 29 and 70--
subsequent to "detectors".

Reasons for Allowance

4. The following is an examiner's statement of reasons for allowance: the prior art fails to anticipate or render obvious the combination of a shift control system as in claim 1, a control apparatus for CVT as in claim 5 and a control method for CVT as in claim 8. Claim 1 most significantly requires, determining a delay time to delay the setting of the target transmission ratio in the second mode at the time of range switchover from the normal driving range to the engine braking range and holding the target transmission ratio set in the first mode until the delay time has elapsed from the range switchover; claim 5 requires means for delaying the setting of the target transmission ratio in the engine braking mode until the line pressure substantially reaches a target value, and claim 8 further requires holding the target transmission ratio set in the first mode until the delay time has elapse from the range switchover.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
